Professional Summary

Full-stack developer skilled in building responsive, dynamic, and user-friendly web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in Java, Spring Boot, and MySQL, with strong problem-solving abilities and real-world project experience.

Skills Summary

- **Programming:** Java, Python, JavaScript, TypeScript
- **Frontend:** React.js, Bootstrap, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, Spring Boot
- **Databases:** MySQL, MongoDB, SQL (joins, subqueries, TCL commands)
- **Tools & Frameworks:** Power BI, Excel, Git, RESTful APIs
- **Soft Skills:** Leadership, Teamwork, Communication

Education

B.Tech – Computer Science & Engineering
HR Institute of Technology, Ghaziabad | 2021 – 2025

12th – CBSE
Saraswati Vidya Mandir, Ghaziabad | 2020 – 2021

10th – CBSE
Saraswati Vidya Mandir, Ghaziabad | 2018 – 2019

Experience

Q-Spiders – Full Stack Developer Trainee

- Trained in Java, React.js, HTML/CSS, and MySQL with hands-on project experience.
- Built and optimized apps using Spring Boot, improving performance by 20%.
- Connected frontend and backend for seamless UX, raising satisfaction by 15%.

Projects

🚗 Uber Clone

- Developed a fully functional Uber clone with real-time ride booking, driver tracking, and live location updates using React.js, Node.js, and MongoDB.
- Integrated Google Maps API for precise location tracking and route optimization.
- Enhanced user experience with responsive design and seamless payment integration.

🌐 Portfolio Website

- Created a responsive personal portfolio using HTML, CSS, JavaScript.
- Displayed projects, resume, and GitHub; optimized for all devices.

🌴 GreenCart – MERN Stack E-commerce Platform for Plants

- Developed a full-stack web application using MongoDB, Express.js, React.js, and Node.js to facilitate online plant sales
- Implemented secure user authentication, product catalog browsing, shopping cart, and payment gateway integration.
- Designed responsive UI for seamless user experience across devices.

💬 ChatterBox (WhatsApp Clone)

- Built a real-time messaging web app similar to WhatsApp using React and Firebase.
- Implemented features like user authentication, chat rooms, and real-time message sync.
- Ensured responsive design and seamless user experience on mobile and desktop.
